SYNOPSIS:

A technically skilled **Software Developer** with nearly **2 years of experience** in building scalable, cloud-based IT solutions using **Java**. My goal is to continuously learn and grow in my field, while delivering high-quality code that meets business requirements and exceeds user expectations.

WORK EXPERIENCE:

Software Developer, 05/2022 – 12/2023

Zoho Corporation, Chennai

- Developed the Integrator Service platform and APIs to enable seamless integration with third-party services, such as Microsoft Outlook, Microsoft Calendar, Zoho Assist and Zoom.
- Designed and developed a security tool that processes XML files, detecting and masking sensitive information like passwords and personally identifiable information (PII).
- Collaborated with projects managers and developed a SAML Login Service improving authentication and user access across integrated systems.
- Developed secure account-based email setup with IMAP, POP3, SMTP, and OAuth protocols, enabling seamless email configuration and management

Software Developer Intern, 01/2022 – 05/2022

Zoho Corporation, Chennai

- Worked with ManageEngine's MSP platform, developing Java-based solutions
- Developed a Two-Factor Authentication (2FA) system using Java, adding an extra layer of protection for user accounts.
- Collaborated with the development team, QA and user experience staff to integrate new modules and features.
- Resolved customer support tickets promptly, delivering effective solutions to minimize downtime and ensure timely fixes.

EDUCATION:

Computer Software and Database Development- Loyalist College 04/2023– Present

Bachelors in Computer Science and Engineering - Anna University 08/2018 – 05/2022

Certifications:

Salesforce Platform App Builder - Designed and developed a custom Event Booking System in Salesforce as a personal project to manage event reservations, demonstrating experience with CRM setup, custom objects, and process automation.
